

“ We provide complete
radio studio packages for
schools & colleges.
Pre-wired and installed,
ready to run. ”

Have you ever considered school radio broadcasting and what advantages it can offer to your school or college?

School radio broadcasting offers numerous benefits to students and staff alike:

- Keep staff and students informed via lunchtime broadcasts.
- Give students extra teaching via pre-recorded programmes.
- Hold live debating and chat shows.
- Generate podcasts for the school website.
- Promote all areas of learning to pupils and parents.
- Build pride in your school.
- Create an enjoyable, inclusive atmosphere.
- Broadcast to the school, the community or the world.

What are the benefits?

School radio broadcasting can enhance student confidence and improve self development skills:

- Expand communication skills.
- Build confidence & engage socially isolated students.
- Develop creative thinking.
- Increase awareness of current affairs.
- Improve language & presentation skills.
- Learn interviewing techniques & journalism skills.
- Improve research skills.
- Enhance teamwork amongst pupils & staff.
- Give pupils a voice.

Easi-Speak Pro Recording Microphone

RRP: **£44.99**
Your Educational Price: **£38.99**

This USB recording microphone is a revelation! The Easi-Speak Pro is the simplest and best recorder available for children from age 8 upwards. It has single touch record and playback buttons, an in-built microphone and an LCD screen with a fully integrated menu system showing the track number playing, battery life, memory status and recording format. It records wav or mp3 files and has integrated USB for quick file downloads and a long-lasting rechargeable lithium battery. Dual 3.5mm stereo jack headphone sockets and a speaker make this an excellent portable recorder for classroom and day-to-day use.

Supplied with:

- 1m USB connection cable, belt-clip and a lanyard to keep the microphone safe.
- Audacity software pre-loaded for audio editing.

Intra School Streaming

RRP PS-SEND: **£459.95**
Your Educational Price: **£413.95**

The Pro Audio Streamers are a range of three IP to audio and audio to IP streamers which allow audio to be streamed around a building, wan or lan using IP audio and CAT5 cabling infrastructure. Typical applications include:

- For distribution of audio (teaching aids) and music around a building, such as for passing audio to speakers in a conference/lecture or class room.
- As an internet-based IP music distribution system.
- As a tannoy, paging or IP based public address system in a school or college.
- For in-house audio applications and distribution.
- For streaming internet in schools & colleges.
- For radio, music and teaching channels in class rooms distributed via an IP network.
- For playing audio from a PC, a jukebox application, or from a USB stick.

Limiting Headphones for Children

RRP: **£29.99**
Your Educational Price: **£23.99**

These are fully adjustable, comfortably cushioned volume limiting headphones for use by children aged 4–13. They set the maximum

output volume to safe levels at 85 decibels meaning that young children can't damage their hearing when using them. They have 30mm drivers in a custom designed shell for true sound reproduction and sit comfortably on the children's ears. These 32 ohm full frequency range headphones are on a 3.5mm jack plug with a 1.25m cord.

Supplied with:

- 10 earphone inserts (6 plastic and 4 paper).
- 3 sets of replaceable ear cap inserts in 3 different colours.
- A plastic carry case.

We can get you on-air, on budget

Streaming & Podcasting Packages

As well as broadcasting around your school or college, you can also stream onto the internet and/or produce podcasts for download by pupils, teachers and parents. We've got some special streaming and podcast package deals - on all of these buy an annual package and only pay for the first 11 months.

The Silver Streaming & Podcasting Package

30 x Windows Media Streams at 64kbps plus 30MB Podcasting Space plus Live Streaming Graphical Stats.
£30 per month (12 month minimum)

The Gold Streaming & Podcasting Package

60 x Windows Media Streams at 64kbps plus 50MB Podcasting Space plus Live Streaming Graphical Stats.
£50 per month (12 month minimum)

The Platinum Streaming & Podcasting Package

100 x Windows Media Streams at 64kbps plus 75MB Podcasting Space plus Live Streaming Graphical Stats.
£75 per month (12 month minimum).

Jingle Packages

Whilst the supplied PC automation software allows you to record & edit your own jingles and music, you may want some professionally produced sweeper idents and jingles to give your radio station an instantly appealing professional quality. Sweeper idents can be used between songs or at the beginning of programmes and news update intros are used to introduce news magazines.

The Silver Jingle Package

4 x sweeper idents and 1 x news update intro.
Your Educational Price: **£199.95**

The Gold Jingle Package

9 x sweeper idents and 1 x news update intro.
Your Educational Price: **£249.95**

The Platinum Jingle Package

12 x sweeper idents, 1 x news update intro and 1 x weather forecast intro.
Your Educational Price: **£299.95**

Contact the sales department for examples of work created for existing schools, or to discuss variations on the above for your particular requirement.

Music Packages

You can rip CDs, record or import audio into your automation system, but if you need a regular source of different music tracks to play you might want to consider a music subscription service. We can provide access to one of the largest music

databases in the world which includes millions of tracks covering all genres and eras including every top 40 UK chart track since the charts began in 1952.

A monthly subscription fee of **£25** provides 50 x music downloads as

44.1kHz uncompressed wav files with extra tracks only 50p each. Paying annually provides 60 additional tracks free of charge.

For more information, contact the School Radio Solutions sales team.

Important Note: Please note that whilst no broadcast license is necessary for web streaming, if you include any commercial music (or other copyright material) then you will need to obtain the appropriate PPL and PRS licenses.

About Us

School Radio Solutions is a division of Sonifex Ltd which has been manufacturing radio broadcasting equipment for more than 40 years and is firmly established as one of the leading radio broadcast suppliers in the UK. The simple to use, reliable radio studio packages are ideal for use in primary schools, secondary schools, college and university environments.

Both portable studio packages and fixed installations are catered for, allowing local and internet broadcasting. Typical packages are shown, but if you have a particular budget in mind, School Radio Solutions can tailor a package to it. Offering equipment, installation and training, School Radio Solutions can provide your complete solution.
